Subject: Cable Ops - Status and Question

Hi Brian,
Happy New Year!

Hoping you and the family had a wonderful holiday season.

I was wondering if we had received all the surveys now or if there were still some on the way?

You'll be receiving another package from us on Friday which will bring us close to 100.

You should have received 76 so far up to now. I believe 25 of them are WGN

We're working hard on getting as many as possible done and are hoping to complete the job in the next few weeks.

This project is definitely a challenge. It's amazing how many changes there are each year in the personnel at these companies and the way the departments are structured. Trying to find the right person and then get a hold of them is like detective work and takes many persistent calls!

Let me know the status of how many more, if any may be coming.

Thanks,
Sandi
